

CAPSPECIALTY COMMERCIAL SURETY ACCOUNT BUSINESS

At CapSpecialty®, our focus is not limited to small transactional surety business. We strive to meet our clients' commercial surety bonding needs and develop strong, valued relationships with our partners.

UNIQUE UNDERWRITING DISCIPLINE

Our underwriting discipline recognizes the many types of commercial contract accounts and the differences reflected in their financial statements. We understand the uniqueness and risk nuances of a broad variety of accounting norms of various classes of business. We offer account lines similar to a contract surety account, but applied on a commercial surety account basis that can include both Commercial and Commercial Contract Surety bonds.

BOND CAPACITY

In addition to being an account's primary surety provider, we write standalone and shared account business, offering:

- Single limit \$20MM with aggregate capacity of \$50MM
- Fidelity limits up to \$250K

ONE UNDERWRITER TO HANDLE AN ACCOUNT

Our agents and accounts have only one underwriter, meaning you get underwriting consistency whether seeking a commercial surety bond for your client (L&P, Miscellaneous, Court, Probate, Public Official or a commercial contract bond (bid, performance, payment)).

CapSpecialty underwriters look at an account on a holistic basis. This approach provides stability in the servicing of the account's various bond needs and speeds decision making.

CapSpecialty Surety and Fidelity Department also offers

Our automated online underwriting
and bond issuance system
