

CAPSPECIALTY COURT AND JUDICIAL BONDS

CapSpecialty® offers a wide range of court and judicial bonds required in civil court proceedings. We partner with our agents to bring you unbeatable service and expertise that is customized to ensure the right type of protection and compliance.

Court bonds are guarantees required by the courts at significant points in litigation to protect the opposing party from loss.

Plaintiff Bonds are required as the result of the court having temporarily granted the plaintiff a privilege. They protect the defendant if the plaintiff does not prevail in their lawsuit.

Defendant Bonds generally delay a plaintiff's action and often guarantee payment if the final judgment favors the plaintiff. Defendant bonds are considered more hazardous than plaintiff bonds.
