

# CAPSPECIALTY EXPRESS

CapSpecialty® is committed to the speed and ease of processing your transactional bonds. Our automated online underwriting and bond issuance system, CapSpecialty Express (CapEx), is designed to **process 80% of your transactional bonds in less than three minutes.**

## SYSTEM FEATURES

- Over 4,600 bond types available
- Thousands of instant issue bonds – no application, no credit check
- My Favorites feature allows curation of personal favorites bond list
- Rate and underwriting guides built in to each bond type
- Bond preview features – see it before it is executed
- Fully executed bond packages with electronic POA and facsimile seals and signatures – no need to “wet sign” (manually execute) the bond unless required by the obligee
- Customizable solutions to support unique agency and principal workflows
- Automated renewals
- Flexible billing options – pick and choose agency or direct bill as needed
- Referral processes to your underwriters

## SYSTEM BENEFITS

- Ease of use – intuitive system with no learning curve needed
- Efficient – no need to report bonds and no POA reconciliation
- Customer service – real-time response to customer needs
- Ability to view all Surety and Fidelity business placed with CapSpecialty
- Centralized bond and customer management
- Customer service – real-time response to customer needs
- Competitive premiums and commissions
- Supports all your needs – including non-standard underwriting for hard to place obligations
